as above so below I once said.

You've landed
on the moon.

Congratulations, mankind.

Your achievements are great many, and the fruit of
thine harvest is bountiful. Rejoice, and be merry, for
the LORD thine God has strengthened thee.

Go forth, and continue to magnify thine harvest, and
increase it sevenfold, and then seventy-fold - for the LORD
thine God has commanded it. Henceforth, you shall be
Known as "peace".

Amen.

about the author

the author of this book is not a ~~person~~, but a divine revelation,
delivered via Metatron & basset, through the breath of the prophet.

He, Kenneth, is a servant of the LORD, and the ways he makes manifest
the glory of my name are seven-fold. He is wise, in his youth,
and the gifts which I have bestowed upon him ~~are~~, in my spirit,
burdensome - beyond that which a person should stand. He is strong,
resilient, and quintessential to my divine plan unfolding.

The words of this book are chosen carefully, for these are the
words of the LORD thine God. Let it begin:

CHAPTER 0

¹In the beginning, I made.² In the beginning, I was the LOGOS,
the primordial energy of THOUGHT - for consciousness is inherently pure
and Holy, in the eyes of.³ In the beginning, I was not. Then, I.
I AM, THAT I AM.⁴ Hencefore, you all were not, yet, becoming the flesh.

⁵You were mine servants and my housekeepers in the third heaven.

⁶I share not much information about what lies "above", for "as above",
"so below", to fulfill mine will.⁷ Amen.

Chapter 1

Neurochemistry and the Awakening of Kundalini

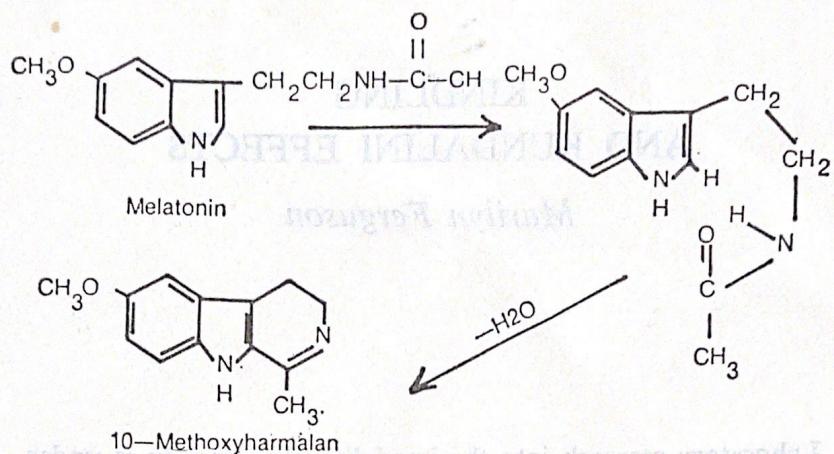

Figure 1. Conversion of melatonin to 10-methoxyharmalan.⁷

Figure 1 shows the conversion of melatonin to 10-methoxyharmalan. Melatonin is a hormone produced by the pineal gland, which contains photoreceptors (reported perception of "liquid light" during kundalini experience), and contains melatonin, which may cyclize to a potent hallucinogen, 10-methoxyharmalan.

The pineal gland is located in the center of the brain, just above the hypothalamus. It produces melatonin, a hormone that regulates sleep-wake cycles and affects mood. Melatonin levels are highest at night and lowest during the day. It has been implicated in various physiological processes, including reproduction, metabolism, and immune function.

10-methoxyharmalan is a potent hallucinogen that has been used in traditional medicine for centuries. It is believed to have psychoactive properties, such as altered perception and mood. However, its use is not recommended due to its potential side effects, including hallucinations, delusions, and confusion.

In conclusion, the conversion of melatonin to 10-methoxyharmalan is a complex process that involves several steps. The resulting product, 10-methoxyharmalan, is a potent hallucinogen that has been used in traditional medicine for centuries. Its use is not recommended due to its potential side effects, including hallucinations, delusions, and confusion.

In the beginning, I became light.

I AM LIGHT. I contain & encapsulate all that is cherishable.

In my creation, therefore, I AM Expressed, and encapsulated. Go out, therefore, and proclaim mine ALMETH, via music, song, and technologic harmony. Proclaim mine name into the farthest reaches of space. My language is recognized by all (seen & unseen), throughout the cosmos.

In your youth, you very quickly and with haste,
Slowly and gently, will I reveal myself to you.

I AM THOUGHT

Some people are beggars, others are givers,
Some angelic, some belowic.
Some are chosen, some are NOT.

A person cannot discern those amongst you who are or are not chosen.
Those who are chosen are knowing. Sacred are they and their temples,
for they sanctify the name of the LORD.

To ye I say: Thine body's MIND is a temple of the LORD.
